USPC Work Sheet for Finish of Cross-Country Test

Upon completing the test, competitors should gradually pull up to a walk and present themselves to the HMJ or veterinarian. Then, under the supervision of a Horse Management Judge, perform any preliminary measures needed for the comfort of the mount. If eliminated, competitors must ride or lead the mount to the vet box.

Upon return to the holding, THE CONDITION OF THE HORSE WILL BE JUDGED BY A VETERINARIAN THROUGH PERIODIC CHECKS OF THE PULSE, RESPIRATION, AND DEGREE OF SWEATING (unless otherwise instructed by rally officials).

At the completion of these examinations, the competitor will be given permission to return the mount to the stable area.
